You Wonder How
I Can Give You
So MUCH for So LITTLE....

My experience over 25 years proves that when you display a compact, space saving stock of John's sturdy, healthy evergreen foliage plants EARLY in the indoor-plant season, you'll move them quickly.

You'll sell a few plants to each customer, and then repeat orders and word-of-mouth advertising will take care of the rest.

You'll make a substantial profit, and you'll place several MORE orders with me in the next few months. So it pays me to cut my profit to the bone to get your business started early.

You get:

1. 168 healthy, well-developed, carefully packed indoor-growing pot plants, of the best and hardiest varieties, including many improved and unusual types. They are guaranteed to arrive by dependable Express Service (collect), in good condition. The 168 plants, as pictured here, consist of:
 - 50 AZALEAS IN BUD AND BLOOM
 - 90 PLANTS IN PLASTIC POTS
 - 28 PACKAGED EVERGREENS

2. Your cost is only \$33 for the entire assortment, and the suggested list prices total \$66, so you at least DOUBLE your money. You buy by mail, getting the usual wholesaler's profit for yourself.

3. Terms are 30 days, so you should get your money (plus a profit) before you pay me.

4. Remember your assistants don't have to be plant experts, because plant names, pictures, and suggested selling prices are sent with each shipment.

5. By starting your sales of plants NOW, you get full advantage of the best selling season - make the most profit - create the most good will.

6. You CAN'T LOSE, as I GUARANTEE that you will be delighted with your shipment, and that you'll MAKE MONEY doing business with John's. This guarantee is backed by the entire resources of my firm, rated \$175,000 by Dun & Bradstreet.

So you have every reason in the world to fill out and mail the Postage-paid card TODAY. You'll join the thousands of merchants throughout America who are happy to do business with John's.

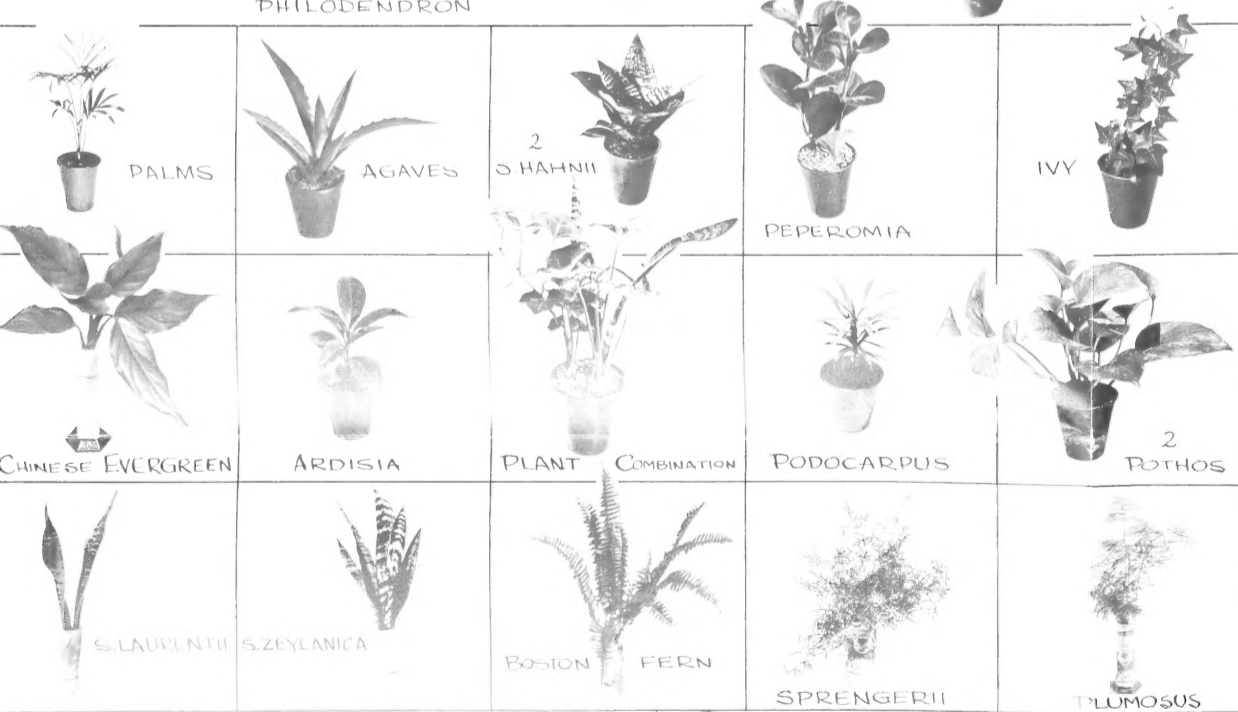

Yours for extra sales and extra profits,

25 Year Club

Seldom, if ever, has SF&N carried a feature story in which so much has been written between so few lines! The occasion is the official welcome into the 25-Year Club of John Masek, and here's the story:

John, much better known throughout the industry by his first name rather than his full name, the owner-manager of John's Plants, Seed and Bulbs, Apopka, Fla., cast his lot with the industry just a quarter century ago as manager of a cooperative nurserymen's association. From 1929 to 1934 he was manager of the Orange County Fern Grower's Association.

Now, if you can get him to go into detail about his experiences, sor-

rows and joys, set-backs and successes, you're a better reporter and interviewer than we are. For us, he simply skips all details leading up to going into business for himself and closed his interview (via correspondence) with this answer to our "stock" question, "If any event could be singled out as the most important in your experience in the industry, what would it be?":

"The delight and satisfaction (after dozens of failures) of growing, packing foliage plants which once were scarce and expensive, to the mass market, within the framework of benefit to consumers, customers, employes and myself."
